

'73 BOND DRIVE KICKS OFF FEBRUARY 20th !

Melpar's annual drive to increase the number of subscribers to the Payroll Savings Plan to buy U. S. SAVINGS BONDS opens Tuesday, February 20th.

With present enrollment standing at 53% Melpar will try to go all the way in '73 to equal the 100% participation by other Divisions of E-Systems Inc.

Incentives for enrolling have been doubled this year - in addition to a weekly drawing for a \$25.00 bond for the next eight weeks, each department that exceeds an 80% participation rate will have another chance each Friday for a \$25.00 bond through an additional drawing from names of people in the "OVER 80%" group. Performance of each group will be posted on a barometer chart in the Melpar cafeteria to show each week's results.

Listed below are the representatives who will serve as team leaders to help their groups in reaching the big 100%.

FINANCE - Marion Cason

Personnel - Jane Smith

OPERATIONS - Marie Yawornicky

Assembly - Grace Brackett and
Lorraine Dabney

Plant Maintenance - Lucille Ferrante

R & QC - Vi Everett

Material - Catherine Hill

MARKETING SERVICES - Anna Ryman

ENGINEERING & RESEARCH

Communications - Norma Hayden

Drafting - Mary Stickman

Electronic Warfare - Rozelle Neely

Ordnance - Janet Bowman

Publications - Charlotte Hallock

STAFF & EXECUTIVE OFFICE - Winnie Clark

Let's go all the way. E-Systems was second in the Nation in 1972 with 97% participation. MELPAR can make E-SYSTEMS Number One in '73.

DIXON SPEAKS AT QUARTERLY MANAGEMENT MEETING

John W. Dixon, E-Systems Chairman of the Board and President, congratulated Melpar personnel on their 1972 record of accomplishment on Wednesday, February 14th at the Quarterly Management Meeting.

In a detailed report, Melpar's President J. P. Chambers displayed charts showing that the Division met it's 1972 bookings goal and enters 1973 with a better backlog than originally anticipated.

During 1972 plant overhead and general and administrative expenses dropped dramatically. Mr. Chambers credited full cooperation by supervisors and managers for the excellent record.

In a summary of E-Systems Corporate performance for 1972, Mr. Dixon described also the outstanding performance at Garland Division and continuing improvements in several other divisions.

MEET THE NEW MAITRE-D'

Bailey McCreery has taken over as the new cafeteria manager at Melpar. Bailey hails from Pittsburgh where he graduated from the University of Pittsburgh. He is presently taking graduate work in Accounting at the University of Maryland. Bailey is planning to be married this year and will be moving to Virginia in the near future.

He joined the Marriott Hot Shoppes 2-1/2 years ago and, before coming to Melpar, was in charge of the Hot Shoppes Cafeteria at GEICO in Washington, serving 2500 people per day. Bailey plans to implement menu changes and welcomes suggestions from Melpar employees.

BOND DRIVE REPRESENTATIVES...left to right, Charlotte Hallock, Marion Cason, Vi Everett, Winnie Clark, Norma Hayden, Jane Smith, Catherine Hill, Janet Bowman, Lucille Ferrante, Lorraine Dabney, Rozelle Neely, Grace Brackett, Mary Stickman and Anna Ryman. Marie Yawornicky was absent from the picture.

SUPERVISORS COMPLETE CASE STUDIES

On 25 January 1973, Melpar supervisors presented their last case study solutions to a live audience in the Falls Church cafeteria--their bosses, including Division President J. P. Chambers.

The general feeling of the 30 supervisor participants who solved five case problems during their 10-week course was that communication among various groups within the division had greatly improved. Each participant met and worked with five different teams during the course, and each participant was given the opportunity of serving as a team spokesman in the joint seminars.

HIGH CHOLESTEROL - HEART DISEASE PROGRAM AVAILABLE TO OUR EMPLOYEES

The National Heart and Lung Institute of NIH is conducting a study on high cholesterol and heart disease risk. Your private physician may refer patients between ages 21 and 55 with an elevated cholesterol for study if free of diabetes or hypertension.

Patients accepted for this study will receive a complete cardiovascular and lipid evaluation at the National Institutes of Health, free of charge. If a person meets all the above criteria, or has had a heart attack in the past, he may call the National Institutes of Health at 496-1057 or 496-6182 for further information.

IN APPRECIATION...Lily Cox has acknowledged with a card of thanks, her appreciation for the many acts of kindness shown her by Melpar employees during her recent bereavement.
